George MARSTON vs. FREE PRESS

Who Was First, the Egg or the Chicken ?

Sharp Tactics of A "Persecuted People"

I had a very nice interview with George W. Marston the other day at his store. You know, one cannot help but like the old codger. He means well. He is so fatherly, has had so much experience and did a lot of good in his days, he cannot help but give me paternal advice on how to run THE BROOM. Of course, he does not have the burden of keeping it going, so he imagines he knows my business better than I do, but that is just the story I am going to tell you.

"Mr. de Aryan, I am tired of reading your paper, you are doing nothing but criticizing, you are destructive, never constructive."

"What did I do now?"

"My attention was called to some articles where you criticise me by allusions to geranium schemes in the park, but that does not matter. There are two thnigs I don't like about your paper. You are against the Protestant Churches (you never criticize the Catholics)—& you are against the Jews so badly that now I must defend them even though they are my competitors & in some cases are using very sharp practices of which I cannot approve."

"I am afraid you have not been reading The Broom very carefully or you would have noticed that I am taking a crack at every hypocrit whether he be Protestant, Catholic or Jew. While denouncing hypocrisy I have never played favorites. The Pope got his share of criticism along with the Anglican Pope, the King of England and the Jewish Talmudic practices. They all look alike to me. You should read The Broom more carefully."

"I am getting tired of reading your articles about the Jews. Of course as competitors, they use sharp practices, but they must do it because they are a persecuted people and have to resort to it, to survive."

Chickens Come Home to Roost

"Now Mr. Marston, you are not mistaken about them being persecuted? Nobody persecutes them in San Diego, they have the same chances to do business as you have; but you say they must resort to sharp practices to survive. You don't do it and survive; why do they HAVE to do it? Is it not rather that what you call persecution is nothing but popular reaction to their treacherous practices?"

"There you go again, always spreading hate against the Jews. Why do you have to misuse the freedom of the press to destructive purposes?"

"But asking such a simple question, is that not in line with a free press? Why don't you answer my question, rather than charge me with hate peddling?"

"They have been persecuted through the ages so their practices have become second nature to get ahead of their persecutors."

"But nobody has been persecuting them in business in San Diego."

Freedom of the Press

"Mr. de Aryan," said George, "we have freedom of the press in the United States, you should show more appreciation by being constructive. Sometimes I read an article in your paper that is really good and then I like your paper; of course when you say what I agree with I like it; I guess that is human nature . . . . "

"But when I take a crack at your geraniums, then you get sick of me . . . "

And George smiled, "I think you got me there, anyway, we have a free press in the United States . . . . "

"Hold on, we have no free press in the United States. Freelance editors are rare and far between who really conduct a free press, the average daily is a commercial proposition, there is no freedom of the press there . . . "

But George got so mad, he rose and left me sitting there and that is no way to treat a guest when he is visiting, at least he should have said good day. But I guess he ran away before he told me what he had in his mind, well, it might have eased his feelings to have sent me to the nether lands for being so boorish as to disagree with mine host. But, then, I represent what George calls the free press and he does not like it.

MONROE AVENUE FILL FIASCO REVEALS WPA SLIPSHODNESS

Retaining Walls Caved In; No Inspection

If you want to see how WPA is wasting tax payers money drive out this week to 45th St. and Monroe ave. project. A bullheaded property owner refused to permit the toe of the slope for a fill across the small canyon there to cover his lot; the city engineer's office then designed retaining walls to hold the roadbed strictly within the city's right of way, but when the walls were erected, the steel rods that were to connect the two opposite walls were too short to reach clear across the street. And now the slipshodness of WPA construction comes to light.

Who is responsible for inspection? Who is responsible for testing materials and proper workmanship? The city engineer passes the buck to the federal supervisor since it is a joint project and the WPA guy simply did not supervise effectively.

When the steel rods were found to be too short to reach across the road bed and connect the two opposite walls holding in the fill across the canyon, instead of ordering specific lenghts from the manufacturer the WPA went to work and welded short rods together. In the meantime a water main that was propped up across the canyon burst. Why did it burst? Again they are passing the buck. The flood of water undermined the fill and perhaps the retaining walls themselves. As the street was being filled with hauled dirt, suddenly the two walls burst with a loud crash and you can still see the wreckage. Either the welds did not hold or the break of the watermain had undermined the walls. In any case the project that started in April last year is still in a mess.

Now the dog in the manager property owner decided to sell the city a $100 right of way to drop the toe of the slope on his lot and the street is to be filled in as soon as a drainage pipe has been elongated enough to reach under the toe slopes of the fill and carry the canyon waters in time of rain. But it seems to take them a year to do the job which a contractor could do in a week and money flows like water out of taxpayers' pockets. Now your new federal taxbills are being hiked to high heaven to pay for this New Deal mess.

HIS WIFE IS JEWISH

Hull Deferent To Red Feelings

WASHINGTON,— Diplomatic observers regared as significant the fact that Secretary of State Hull, in his statement to the house foreign affairs committee, did not include Russia, in his castigation of aggressor nations.

That Hull refrained from mentioning Russia at all, despite the Soviet's invasion of Finland, and occupation of the Baltic countries, was seen as part of this government's efforts to wean Moscow away from Germany.

Wednesday night **7:15 is the new time** for 'de Aryan Comments' on KGB.

Eleven Bread companies were indicted by a federal grand jury in Philadelphia for conspiracy to fix prices in violation of the Sherman anti-trust act. In San Diego our local wholesale bakers refused to enter a combination to raise the price of bread or lower the quality of the loaf and the local branch of one of the Big 11 bakeries under indictment in the east used the same tactics that were used in Los Angeles and elsewhere to put competitors out of business by lowering the price of bread in San Diego to 10 and 8c, respectively. The San Diego bakers who refused to raise the price of bread on us were Snowflake, Kramers, Winters, Mrs. Conklings and all the small neighborhood bakeries who keep faith with San Diego consumers.

Don't fail to patronize them.

VERNE MARSHALL

The No Foreign War Committee Chairman, Verne Marshall, Editor, Cedar Rapids (Iowa) Gazette, saw service in American ambulance corps after enlisting in the French army before the U. S. entered the world war. He denounces the William Allen White Committee to Defend America By Aiding the Allies for using propaganda methods that preceded America's involvement in the World War. White's committee has spent in excess of $265,000 to put out tons of propaganda, occupies two floors of a N. UNION NOW — TREASON

(de Aryan Comments)

Radio Talk, KGB, Wednesday, Jan. 15, 1941

(Broadcasting time has been changed to 7:15 pm from now on)

The interview betwen Miss Lillian S. Troy and a member of the Clarence Streit: **Union Now** propaganda committee, which took place recently in Pasadena was republished from THE BROOM by the San Francisco LEADER, giving credit to THE BROOM for initial publication. This article was so much in demand that I had to reprint it in THE BROOM to satisfy my customers. It tells the story of what **Union Now** actually means, stripped of it's propaganda: It means that the United States is to be annexed to Great Britain, the King is to be our ruler and the Union Jack is to replace the Stars and Stripes. The San Francisco LEADER is the official organ of the Irish-American societies and of the Ancient Order of Hibernians.

Heaven on Earth Climate

While parts of the world are freezing and are snow and blizzard bound, San Diego has been enjoying June weather in January, it certainly is unusual weather. But it justifies the influx of many prominent people from the Atlantic coast who are settling in our county for permanent residence. Among them is George M. Peek who bought himself a nice country estate at Rancho Santa Fe to enjoy our heaven on earth. A mutual friend called on me Sunday and took me out there to become acquainted. Perhaps you remember George Peek. He used to be General Hugh Johnson's twin of the Moline Plow company. Both were associated with Bernard Baruch, the financier, and Czar of the war industries board in Woodrow Wilson's administration. Peek was one of the administrators of the tripple A until recently and Hugh Johnson was the crack down boy of the NRA, if you remember. Well, I had a very interesting visit of several hours. He told us a good deal of the goings on in Washington which rounded out the picture we have been giving you in The Broom of how this war is being engineered and financed. You might have imagined that Peek,

Firemen's 72 Hours Work Week

The Honorable, The City Council
San Diego, California.
Gentlemen:

Concerning the collective bargaining that has been going on between our AFL fire department and your body on matters of hours and wages, it appears to me to be bad policy and poor business not to order immediately an adjustment of hours of work for the fire department from 84 to 72 weekly. From the informal negotations it appears that the council is unanimous concerning hours of work, so why wait?

The attitude that because the AFL union negotiators for the firemen rejected the council's offer for time adjustment unless accompanied by a raise in wages (10 to 15%) the time adjustment is to be left hanging fire to permit the AFL union to circulate initiative petitions and start its propaganda to undermine the charter provisions on civil service salary rules;—this attitude is dangerous and not just to the taxpayers nor to the firemen.

If the council agrees that 72 hours is the proper weekly work period why wait? Why not do the right thing right away? If it is their due to which the firemen are entitled, then they are entitled and should receive it promptly. Should they thereafter decide to jeopardize this improvement by having the voters turn it down, it will be their funeral.

If they do not get what they are entitled to, they, then, will have a good rabble rousing talking point when going before the voters to sabotage the civil service provisions of the city charter. That is always the method employed by labor unions when they decide to encroach upon the laws of the country. They produce an ounce of just grievance and demand a ton of surrender of constitutional rights of employers, charging them and consumers alike with the cost.

The taxpayers have a right to expect that this council prevent the AFL union from getting that ounce of just grievance: Give them their 72 hours. Then there will be no confusion concerning the sabotaging forrays of this labor union on the city charter and the civil service commission. If they imagine that just because they are a labor union they can tear the charter to pieces to write their own ticket concerning wages, the people of San Diego who must foot the bill will tell them plainly where they get off.

Yours truly, C. LEON de ARYAN.

New Car Dealers To Go on County Welfare For the "Duration"

If the aid-to--Britain lend-lease bill passes, the new car dealers will have to look around for a soft spot to land. Some might land on the county welfare according to national surveys of the automotive industry.

With the powers the President will get under this bill, the first concern of the administration will be the construction of trucks, not passenger cars, and the next concern will be motors for airplanes. Tanks, too, will receive preference over passenger cars. Since new car dealers will not handle airplane motors for resale, nor tanks, nor trucks for the governmnt, they will have to enter the used car market for trade. As the tool making industry will be requisitioned by the President to make dies and tools for armament, the supply of new passenger cars will dwindle to a point where many long established dealers will be bankrupted, of course, to aid England. If Jewish financiers buy up their business at bargain rates and occupy the premises, as they did in postwar Germany, who can complain?

JEWS TO BUY UP BANKRUPT ASSETS CHEAP

CCHICAGO,—James S. Kemper, president of the U. S. chamber of commerce, believes war for the U. S. would mean bankruptcy and dictatorship:

"We should keep constantly in mind that federal bankruptcy might force us—as it has so many nations—into a type of government that every true American abhors."

Jewish Tricks to Get U. S. into War !

In today's front page story I am relating an impromptu interview I had with our foremost citizen, George W. Marston. At the time he talked to me he did not realize what a good front page story he gave me. Old man Marston is anything but a Jew baiter.

Mr. Marston is not the only one who has been upraiding me for continually pointing to the Jews as the minority war mongers, who are betraying the hospitality America gave them and their race, in order to take control of our government, our financial and economic system and tyrannize us, as they are doing now when they are driving us into war. The greatest enemy of the U. S. A. is right in our own country, not in Germany, it is the war monger. The British and the Jewish war mongers are the enemies of this Republic. I dare say so because I have taken repeatedly an oath to defend this nation and its constitution against all enemies, foreign and domestic and I am one man who lives up to his oath regardless of consequences to myself. If that makes me un-American, then I am proud of this brand of un-Americanism that puts loyalty to the founding fathers' concept of the Republic above fear of reprisals from our domestic enemies.

"Yeah and Nay"

There can be no worse and inhuman trait in any individual, and groups of them, than cruelty to defenseless animals for the sake of profit. The Talmud, their supreme authority on Jewish law and ritual, enjoins Jews to slaughter defenseless animals by cutting their throat wide open and letting them bleed to death in the full consciousness of the horrors of death. In Hollywood the "one hundred percent Jewish motion picture industry", according to a brag of Eddie Cantor himself, has until recently tricked horses over cliffs, tripped them by wires, broken their bones, legs and ribs and killed them outright for the sake of the shekels to produce "thrills" for the box office. Collier's magazine and Hearst had to denounce it. These two examples tell more than books can tell about the moral and spiritual propensities of the tribe.

They are tricky. The Jews who are not like them, even they call them KIKES. There are Jews who have no use for the Kikes, but the Kikes prevail.

Jesus did away with the vantom cruelty to the pascal lambs when He introducd in their stead the Easter communion of bread and grapes and enjoined His followers never again to indulge in the Jewish inhumanity against the lambs but in Memory of Him to feast upon the fruits of orchards and fields.

Jesus upraided the Jews for their trickery and stated pointedly that only those who are simple in thought and word will enter the Kingdom of God. Their word is to be Yea and Nay and more than that is of evil.

Henry Morgenthau's Trickery

The United States is to be inveigled into war for two ends. One is to destroy our Republican form of checks and balances, destroy our middle class (burgeoise) which the subversives always hate and enthrone totalitarian Jewish-Communist tyranny as in Russia; the other purpose is to get even with Hitler and simultaneously make Russia the ruling power on the European continent in place of Germany. To accomplish this any method of trickery is O. K. with the Cahilla or world conspirators. One cannot say that Paul Mallon is a Jew baiter, but read how he describes the trickery used to destroy the Republican form of government, make the President supreme and get us into war:

WASHINGTON, Jan. 14—Mr. Roosevelt's congressional helmsmen who are trying to ride out the storm over the blank check lease-lend bill seem less excited than anyone else. One or two have been found indulging themselves in smiles on the side. They say they planned it this way.

The official inside story is that Mr. Roosevelt was not very anxious to seek all this power and draw down the old suspicions on his head again just at this time. But Speaker Rayburn, Senator Pat Harrison, and some of the other congressional leaders advised, as a matter of strategy, that the measure be loaded up with every conceivable authority. The idea was to draw the attack in upon that side issue and save the real question—the validity of unlimited aid—from bitter controversy.

In one semi-final draft of the bill there was even included authority for American battleships to convoy merchantmen to England. This seemed a little too much, however, and was stricken out before the bill was presented.

The trick of asking for more than you expect to get has been worked before on congress by the new deal manipulators. It means now that they are preparing to settle gladly for several restrictive amendments—certainly including a time limit and probably including a requirement that the British display some convincing evidence of their promise to repay.

And neither can anyone say that Gen Hugh Johnson is a Jew baiter, he is an admirer, friend and former associate of Bernard Baruch; but read what the general says about Morgenthau:

WASHINGTON, Jan. 14—When the blank check, lease-lend bill has been bum's-rushed through congress, the United States may not be at war—but the president will be.

This astonishing bill was prepared under the direction of Mr. Morgenthau in the treasury and there is good reason to believe that neither Secretary Stimson of War, Secretary Knox of Navy and Secretary Hull of State was consulted on its terms before it was published. Somebody beside Henry the Morgue ought to be consulted before we buy a ticket to perdition.

My Oath of Allegiance Prevails

With all these facts before us would I not be a scoundrel, a traitor to my adopted country, if I closed my eyes to what is going on. I am being assailed from all sides as a Jew baiter but the truth prevails. I would just as gladly absolve the Jews if they formed groups to combat the Cahilla and the Kikes in their own midst. But the Jews are afraid of the consequences to themselves if they were to come out openly against involvement in the war, against the use of such tricks as have been employed ever since the New Deal started to usurp power after power and undermine our form of government for which George Washington and the Founding Fathers risked their lives and substance.

As an individual I like Jews as much as anybody else. I am the most dispassionate individual where it comes to personal feelings, but as a matter of public duty and policy I represent the free press of America. My sworn duty is to put the interest of my fellow Americans above the interests of Jewish and British world imperialists and while I have breath The Broom will tell the facts. History will prove how well I know what's going on.

GOD SAVE AMERICA
(The New Gentile Song)

(1) God save America
From new slavery:
As inside her, Jews guide her
Into war for the Kikes 'cross the sea.

From the prisons, from the ghettos,
All the kids from Europe's shore
Swarm to America. She's ours no more.
(Repeat)

(2) God save America
From Red tyranny,
From the Jew deal, the New Deal,
And its aim to end all liberty.

See the race that, as in Russia,
Cast the Cross down from the throne
Make this "Jewamerica", World Yiddish
home, make this "Jewamerica",
World Yiddish home.

Note: In view of the present attempt to substitute "God Bless America" by Irving Berlin" Russian-born Jewish patriot and syndicate musician, these words might also be sung.

Let real Americans continue to sing our own "THE STAR SPANGLED BANNER"

HAPPY NEW YEAR?

What kind of New Year will it be for the United States?

Shall we in America continue to enjoy the blessings of peace, maintain our humane way of life, hold to the high ideals for which our fathers fought and bled? Or must our nation, too, go down debauched, mass-murdered and mass-murderers—to war's ruin?

The answer lies with you. The answer at this moment will be found in what YOU think, in what YOU want.

If YOU want PEACE, quick action NOW will save it!

Help the NO FOREIGN WAR COMMITTEE in its fight to the last ditch to foil the interventionists, the rabble-rousers, the deceptionists in their heavily-financed campaign to start this country shooting. Add the power of YOUR WILL to that of the alarmed, but heretofore inarticulate and "unconsulted" U. S. Citizens who bear the brunt of war which others start. No longer will this vast MAJORITY remain helpless and mute while an ever-active minority, with megaphones and money, shouts for war.

What should you do?

Immediately take these steps:

1. Send a CONTRIBUTION to the NO FOREIGN WAR COMMITTEE to be used by us, for you, in striking steadily against those who insidiously plan for our disastrous involvment in war. Give to the point of sacrifice. Give NOW. Address your contribution to our Treasurer, Robert A. Lancaster. (Every penny in contributions will be acknowledged and accurately recorded. A firm of Certified Public Accountants will render an accounting of our receipts and disbursements, weekly.)

2. Today, write or wire President Roosevelt, your Senators and Representatives in Washington, D. C., that you expect them, as your elected public servants, at Washington, to keep this country OUT of any foreign war.

3. In your own community make your voice heard, your wishes felt among your friends and associates. Write to your local press. Become a counter-force, in and by yourself, as you champion what YOU BELIEVE IN. Do it now, or never. Join with the millions who are joining with us.

One week ago today, following my acceptance of the National Chairmanship of the NO FOREIGN WAR COMMITTEE, a full-page advertisement appealing for America's support against the interventionists was printed in fifty-one newspapers from coast to coast. That message to the people of America was paid for by the newspaper with which I am identified, the Cedar Rapids (Iowa) Gazette. Within an hour after that appeal reached the public our offices in New York City and in Cedar Rapids exeprienced an ever-increasing flood of contributions ranging from 10c, received from an unemployed man in Wisconsin, to a check for $4,000 received from New York City.

There is evidence to show that the NO FOREIGN WAR campaign can and will succeed in its fight to prevent the country we love from being dragged into the degradation and despair of foreign war. Success will be assured IF YOU DO YOUR BIT NOW.

Whether this will be a HAPPY NEW YEAR depends upon your own DETERMINATION to keep America at peace.

THE SPIRIT OF 1776

by
Lois de Lafayette Washburn

Listen, my countrymen,
And you shall hear
Of the price you've paid,
Which is all too dear,
For neglect of your
Fathers and their sons
Of America's freedom
So costly won.

From that time on
Those brigands have tried
And into our Government
They have pried.
What care they
For our Constitution
When they plot to stage
An Anti-Christ Revolution?

Through all those years
They plotted and planned
To take us captive
In our own native land.
They lulled and blinded
And deceived the people,
Until they thought they
Were more than equal.

"The Court," said they,
"We'll have to pack"
To throw the Government
Off the track,
To usher in
The Jewish State
Of Marxism
And class hate.

But wait a jot!
We're ahead of our story.
Just why **did they plot**
To defile "Old Glory?"
To avenge defeat
In the battles lost,
When into the Atlantic
Those Hessians were tossed?

Yes, ... this and more
That is very shocking;
Yet if you don't know
You're really lacking!
They pray to their god (Lucifer)
To destroy us, "Goyim",
And give **them** possession
Of our lands and home!

It's a satanic plot
To possess the earth;
That every Christian
From the time of birth
Shall be slave and captive
Of brigands bold
In their lust for debauchery
And their greed for gold.

The glorious victories
of 1 7 7 6
Were N O T tax rebates —
I should say N I X !
They brought you freedom
From the money lords,
Extracting their U S U R Y ,
Piling up hordes!

Just why did they sign
A Declaration?
Were they quibbling about
Some specification?
Or was it a case
Of over-vexation
Because of Britain's
Method of taxation ?

And would that have brot
A fighter bold
To spill his own blood
And pour out his gold
To lift the burden
From Colonists's backs
Of nothing more than
An unjust tax ?

Do hear the story
From Lafayette
Who, from British drunks
At a Paris Banquet
Learned the true status
Of the Colonist's plight
And promised Ben Franklin
Help in the fight.

The contemptible crime,
As we are told,
Was in the juggling
Of the gold.
The sovereign money
Would not do
To pay the Shylocks'
Tribute too.

But the Colonists knew
What 'twas all about,
And so they said . . . .
"Throw the British out !
If they have to bow
To the Jews' golden calf,
We'll rid ourselves
Of such dross and chaff";

We'll draft a Constitution
Of our own
And compel those brigands
To let us alone.
We'll place our funds
In the hands of Congress
That will stand no more
Such treasonable nonsense.

But this daring youth
Of the Revolution (Lafayette)
Feared vulnerability
Of that Constitution;
So his venerable friend
And chief adviser,
Ben Franklin, tried to
Make them the wiser.

"I warn you gentlemen,"
He said to the framers,
"Exclude these Rothschilds,
These Asiatic-Africaners,
Or your children in the
Fields will toil
To dig this tribute
From the soil."

But here did satan
Craftily beguile
The Gentile Aryans
For a good long while.
That warning those men
Failed to heed
Has caused their sons
To bleed and bleed.

They've mulcted our Nation,
Through bloody war bonds,
Of billions upon billions
And tons and tons.
To murder our Christian
Brothers, "The Huns",
They charged us the bill
And made of us bums.

But now their corruption
Spreads over the earth;
And Judas has nowhere
To make him a berth.
So he wails, "persecution!"
And he howls and he moans,
"The brotherhood of man—
Communism — that atones!"

Now we're right back again
To where we were —
Facing the horrors —
Of another gold war.
Which, oh God, will the
Outcome be . . .
"Onward Christian Soldiers!"
Or — "Abide With Me?"

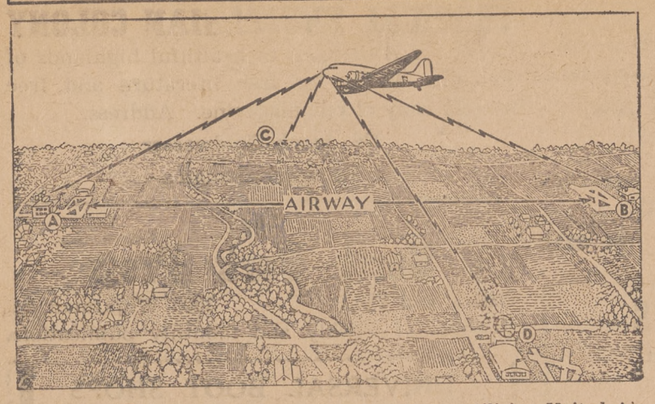
How New Airplane Spotter Works



Artist's sketch shows how ground stations, utilizing United Air Lines' new airplane location recorder, can quickly and easily determine the exact position of a plane in flight. Stations equipped with the device automatically receive bearings on a plane every time its radio transmitter is used. By taking simultaneous bearings, stations "A" or "B", directly on the airway, can work with stations "C" or "D", off the airway, in triangulating and determining the plane's exact position.

U. S. Taxes to Pay For Britain's War

Drastic changes in the federal income tax structure put into effect by the recent session of congress to cover emergency defense costs, indicate an enormous increase in the number of Southern California residents who will file income returns for 1940 in this district, according to estimates released by F. F. Fitchthaler, chief of the income tax division of the local bureau of internal revenue.

Previous to 1940 all single persons with a net income of $1,000.00 or more, and all married persons with a net income of $2500.00 or more were required to file returns. For 1940 these exemptions have been lowered so that single persons with a GROSS income of $800.00 and married persons with a Gross income of $2000.00 are now required to file returns whether or not they have any tax to pay.

In the past year 369,000 taxpayers filed income returns for 1939.

For 1940 over 925,000 returns are expected to be filed in the 14 offices of the internal revenue service in the 10 Southern California counties, Fichthaler said.

In addition to lowering the exemption brackets the recent congress also voted increased surtaxes on personal income between $6,000. and $100,000. These increases together with increased corporation taxes will result, Fichthaler estimated, in a raise in revenue of approximately 28%.

Income taxes collected this year on 1939 incomes in Southern California amounted to almost $88,775,000. Fichthaler expected to collect over $113,630,000 for 1940. A major portion of this increase will be accounted for by the new Defense Tax.

All taxable incomes will be subjected to a new tax, the first of its kind ever levied in the United States. This tax, known as the Defense Tax, is 10% of the taxpayer's regular tax. A taxpayer whose return indicates a tax, for example, of $20.00 will also pay a defense tax of $2.00, making the total $22.00.

1940 returns must be filed not later than March 15, 1941. Blank returns can be obtained at any internal revenue office in Southern California. The revenue service, Fichthaler pointed out, is not obligated to mail returns to anyone.

Why Give Credit to A Dead Beat ?

Editor, The Broom:

I heard your Boss (wife). I know because I too belong to that Great Fraternity (matrimony). She read an article from a New York paper on the war. —Enquirer—She said it would appear in The Broom for 5c which I am sending. The U. S. A. stands for United States of America in words only. Not only here in California but all states bordering Mexico it is the same. It seems from talks on the streets we are in Mexico. They come into the world in charity or relief and stay on till old age and death. If all aliens were taken off the State Relief the same as the government did, it would cut the relief load probably in half. Cannot let them starve, heck, NO! But Americans can and lose their homes because they cannot get work or on relief. I don't believe in Reds but I sure see red when I see them on relief or jobs and Americans have no job.

A drunken official getting off almost free the same as the Mayor and Royal Coach. If you have a pull or a badge in lapel you are above the law.

I don't see any difference in any war mongers, whether in America or foreign countries. And they are surely running this country and it seeems we are sure headed for war. Why should we give a dead beat any more credit? If you or I want a loan we must give some A 1 security and lose all if we don't pay up in time. Then why not make all other loans on that business plan? Charity should begin at home, the same way with other things too.

Yours for America first and always,

AGRESSOR vs. OPPRESSOR

England as the oppressor.
Has now a fierce aggressor
For Adolf Hitler knows to fight
To get his people out of plight.

The battleships constructed
Instead of friendships conducted
Bring now a harvest none has hoped
Of those by greed and hatred doped.

If they don't come together
And plan things for the better
Soon very little will be left
And countless millions be bereft.

WHY ROB THE MINERS ?

When Frank Gimlett, 74-year-old prospector and miner, of Colorado, arrived in Washington the other day and asked why it was he got only paper money for his gold and silver bullion, it was noticeable that no one rushed forward to give him a specific answer. The booted and bewhiskered Mr. Gimlett can't understand why they pay him 71 cents for silver while the treasury books it at $1.29, or why, instead of handing him the old solid, substantial $20 gold piece for an ounce of gold, they give him, $35 in greenbacks.—Edwin C. Hill.

THE SOLUTION MUST COME

There will sometime be a solution of the money problem—though no one sees how it will come. But it must come. The very pressure of real wealth on the signs of wealth—that is on money—will reform the money system into something bigger and more useful. The enemy of money is wealth, and wealth is gaining the ascendance over money.—Henry Ford.

PATTERSON LEFT IN LURCH

Lieutenant Governor Ellis E. Patterson, who lives in constant hope that some whim of fate will clothe him with the royal robes of the governorship, was all set to don the gubernatorial toga a few days aback. There was a hot news tip from Washington that Governor Olson was seeking appointment as ambassador to Mexico—and Mr. Patterson, hearing opportunity knocking on his door, got a shave and a haircut and sat back, waiting for the official announcement. Governor Olson decided, however, that the Mexicans might be more troublesome than the Economy Bloc in the Legislature. And Pat was left in the lurch again!

What with various kinds of crusades being organized—like the successful pennysnatching Children's Crusade for Children—there is a demand for pennies according to an AP dispatch from Washington, which caused the mint to increase its working force from 380 to 600, and it "is working 24 hours to meet demands for pennies caused by the new taxes."

Of course taxes take pennies too!

Late Aug. in the Washington Merry-Go-Round was a discussion of Brazil's unsuccessful attempt to buy our over-age destroyers. They tried for four years, with no success. The Merry-Go-Round observations conclude:

"No wonder the Brazilians are listening sympathetically to a German offer to sell them $60,000,000 worth of guns and munitions at one-third what they would cost in the U. S.

Who Is An Atheist ?

My dear Mr. de Aryan:

You had a very fine article in "The Broom" not long ago, which gave me a pretty clear view of your idea of God. I suppose I thought the article fine because it expressed my idea of God, too, and we always value ideas which are similar to our own, don't we? —

But now I shall have to argue a little with you, after I read your statement that my husband is " an atheist". — He sometimes applies the title to himself — so he cannot object — but I do not think it is true, whoever may say it!

I admit that he is an "agnostic" — and if we all were perfectly honest I think we should have to admit that we were agnostics, too. There are certain things that we have strong convictions about, because we feel that we have proved their truth to our own satisfaction, but I believe that absolute knowledge is an infinite thing, which we cannot honestly claim for ourselves, much less can we claim our exclusive possession of it—with those who do not "see things our way" necessarily less wise than are we ourselves.

Now, an "atheist" is one who knows no God, or one who denies the existence of a God. If God is infinite Good—or I believe—anyone who expresses Good in his thinking and living, is a knower of God and is proving God's reality every moment of life. This sort of man cannot possibly be an "atheist"—and this is the sort of man I believe my husband to be. In fact, the person who professes to believe in a good God and whose living contradicts his profession, is the one who is really the "atheist", I think, for one's only proof of God must lie in his manifestation of the quality of God.

I believe the Bible says, "The fool hath said in his heart—there is no God". —If he says it "in his heart", he is at heart both God-less and foolish. But if his heart is filled with goodness, love, justice, kindness, generosity,—then it is expressing God and it is neither foolish nor God-less, and no amount of talking can change the fact that God is present in the man who so reflects Good.

We do not all say things in the same way—and what may seem sacrilegious to one will not seem so to another. I think it is unfortunate to offend anyone, but if we are to express honestly the thoughts that seem worth while to us, we are bound to say things which may hurt the sensitive, unless these same sensitive souls can take a broad view, realize the honesty and courage which inspired the speaker—and show the same tolerance towards another's ideas that they would like to have shown toward their own.

"Freedom of speech" and "freedom of the press" are not simply sources of satisfaction to us all, and not merely Constitutional rights, I believe, but they are highways of progress. Reform in thought can come through no secret by-paths. They must step down the open roads where all can travel—and the so-called churchmen and agnostics, Jews and Gentiles, Germans, British, Japanese and Chinese, coalminers and mine-owners, "capitalists and laborers"—all types and conditions of men can help one another by listening to one another and seeing Good everywhere.—Isn't this true?

I had no intention of writing so much, when I began, but I feel that I must say something—Please forgive—

A happy New Year to you and all good wishes—

Most sincerely yours,
GERTRUDE B. HUGHES.
Glendive, Montana.

A Christian Scientist's Apology

I have wondered many a time how Mrs. Hughes who is a Christian Scientist, could get along with an agnostic husband who proudly speaks of himself as an atheist. But the above Apology for Agnosticism explains matters. The Christian Scientist simply sees Good in everything and realizes that poor husband does not know what he is talking about, so it does not offend her when he denies or ridicules what is sacred. In fact friend husband has to be re-educated as all who suffer from temporary paralysis, be it of limb or mind. In speaking of God one does not speak scientifically by saying "a God", unless one means a particular God, a mythological one, which is quite another matter. When we speak of water to a chemist we do not say "a water".

Absolute Knowledge vs. Positive Knowledge

If we would leave out the foreign words and speak English we would not say a fellow is an agnostic, we would say he is ignorant. Some people are proud of their ignorance and show it off in and out of season, others don't brag about it but set to work to remove it and fill in the void with knowledge, positive knowledge. Contrary to the imagination of the ignorant who is so comfortable in his ignorance that he considers it folly to be wise, the human mind is capable of positive knowledge. Mathematics is one of the positive sciences now generally recognized as such. Of course, there are other sciences just as positive to those who take the trouble to study them with the same effort that it took to grasp the intricacies of higher mathematics.

When reason has been trained to stick to fundamental verities, as in mathematics and build up a system which becomes infallible in calculation and can at all times be checked and double checked and proven correct, then such reasoning faculties can be directed into other realms of thought to adduce positive knowledge so that we do not have to perpetually be ignorant and "honest" agnostics. We can by pure reasoning prove immortality, reincarnation, the presence of God, etc. But that is different from direct **revelation.** The mind is capable of realizing that **there must be God,** still this mind does not see God.

To perceive God, one has to become God-like, for only like perceives like, only light preceives light. The purpose of all religious discipline is this God-like goal, this Christ-like life and then other faculties of the human being come into play, unfold and spirit perceives spirit, soul meets soul. In that high stage of being we then unfold our inborn divine nature which transcends the limitations of mere mind, mortal mind, or what men call reason. While it does not contradict reason, nevertheless it is a higher faculty which facilitates direct contact. Reasoning can be compared to a blind man who uses the sense of touch to count the pebbles in his palm. Spiritual perception, which **is absolute knowledge** can be compared to the man who not merely counts them in the dark and knows they are pebbles and that he has five of them, but who does not have to go to the tedious work of touching each in sequence to count, but at one glance sees the five, sees they are pebbles and not pearls or precious stones. The blind man cannot tell whether the pebbles are valuable or mere pebbles.

It is futile to attempt discussion of such matters with people who do not take the time and effort to live up to the discipline which alone builds up the higher faculties in man. The average person prefers to be "agnostic", that is ignorant, and wind up in sickness when the world is still young, wind up in war and poverty when the world is so full of all good things and too much of it so that our criminals resort to artificial scarcity by destruction on a small scale at first and on a world scale in war and they call it: New Deal.

Did God Order Rape & Murder ?

Glendive, Montana January 9, 1941

My dear de Aryan:

Have just received the January 6th issue of the Broom and I note therein a review of "Hell and Amen" by your son, David. He has the old man beaten forty ways, at least as far as book reviews go—probably in a lot of other ways, too.

My letter of Dec. 30th evidently was a little tough for you to answer so you resort to calling me "names" again. First I was a fool—now I am an Ass. There are at least two more names so freely used by Christians in describing those who doubt the rib story—5th columnist and communist. Possibly you are saving these names for future use.

Since you apparently are not much of a miracle man and are not able to take the "fool" out of me and give it to a herd of swine as Jesus did with several devils, can't you possibly take the "ass" out of me?

Regarding the 1770 Gods: I refer you to "Gods—a Dictionary of the Deities of all Lands", published by G. P. Putnam's Sons (1931). No doubt you can find a copy of this book in the San Diego library. It gives a brief biography of the whole bunch, including Jehovah.

I am not sponsoring any of these "Gods" and before you ask me to prove that there are 1770 Gods, would it not be only fair that you prove that there is even one God? For the existence of your God you have only the say-so of a Jewish sheep herder, Moses.

And now you ask for proof that God ordered the destruction of all save the virgins and those to be kept for the use of the Jewish soldiers. The best proof I can offer is taken from the Holy Bible, the "Inspired" word of God. Here it is:

Numbers 31:7 "And they warred against the Midianites, as the Lord Commanded Moses, and they slew all the males."

Numbers 31: 17-18 "Now, therefore kill every male among the little ones, and kill every woman that hath known man by lying with him. But all the women children, that have not known a man by lying with him, keep alive for yourselves."

If you are unable or afraid to answer the questions in my letter of December 30th, why not be honest and say so, and not beat around the bush any longer.

Yours very truly,
FRANK C. HUGHES.

Aid-to-Britain—plow under every fourth American boy.

God Is Life, Intelligence

My dear Hughes:

I see where you are starting to recant. First you said positively, "P. S. Did you know that there are 1770 Gods in the world today?" and when I called you to prove it, you backwatered, "I am not sponsoring any of these Gods".

If you are not sponsoring, why bring them up in the challenge?

As far as I can see you have failed to produce proof that God ordered destruction of all males and keeping the virgins for the use of the Jewish soldiers. All you did is quote another book, as you advised me to read the one about the 1770 Gods.

Man, have you ever learned the difference between hearsay and "proof" by testimony? Your proof is that some damned, dirty, pervert Jew blasphemed God by ascribing to Him such a criminal attack upon men and women. Now if you belivee it, you merely prove that you and that dirty Jew are two of a kind. As far as our discourse on "God" is concerned you still have failed to prove the identity of the one who ordered the destruction of the males and the raping of the females. You'll find it was another pervert Jew, not God.

Now as to being unable or afraid to answer your questions in your Dec. letter, don't crowd me to give you a "Joe Louis" and put you out of your agnostic misery, it would not be sporting. We must not cheat the customers. They want to see a bout and you would not learn anything by a knockout. It would merely make your head swim, knock you silly and you would not know what hit you. I have to be careful to save what little good sense you got to induce it to work and see the light.

Before we can come to the real bout, let's have the preliminiaries out of the way. You gave up the 1770 Gods. How about that murder business of the males and the raping of the virgins? Did God do it, or don't you "sponsor" this criminal assertion, either?

You see, you bit off so much in your Dec. letter I am making you eat it, piece by piece, or don't you like it? You are great at dishing it out, let's see you take it.

You certainly are a good one to squawk about my calling you "names". What have you been doing but calling us names in all your muck-raking contained in 'Hell and Amen'. At muck-raking you excell and you do it very entertainingly as David testified for you, but when you enter into a scientific discourse, where you no longer play to the galleries, but must account for every word you use and each time you take the name of God in vain, then you don't like being called "names". You are making yourself ridiculous to boot.

Before I'll get at the Savior, whom you so crudely and obscenely besmeared in the best Julius Haldeman & Harold Ickes style, and give you my reply to it, let's first find out whether you still sponsor the male murder, female raping charge as being instigated by Almighty God. I cannot get at the meat of the question as long as you introduce concepts about God, which are not divine. You see we have to clarify our terms first so we both know what we mean when we say "God", Christ, Savior, etc.

The public also wants to know what you mean when you bandy the name of God around as if it were a concept of the sewer of crimes and superstitions in which you so delight to rake for muck. You did not like the "fool", nor the "ass", but when you talked about God as ordering the murder of males and raping of females you certainly grunted with contentment, as the hog does in his mudhole. Let's get you out of it, where the air is clean so that we may talk about the living God that is, the source of your own intelligence, or have you none?

Sincerely de ARYAN.

HEALTH-GERMS

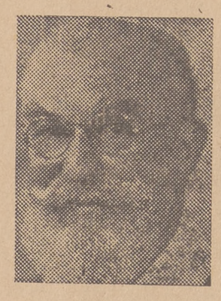
A "MIRACULOUS FORMULA"

The following "formula", which appeared recently in Ripley's "Believe It or Not" column, is interesting because it shows that the practice of medicine has deteriorated since Napoleon's time, when a successful physician used a prescription that was not harmful.



Dr. Geo. Starr White

Our "modern" doctors use "remedies" that are dangerous and help keep the undertakers busy!

Here is the "Miraculous Formula", by which a French physician, accordiny to Mr. Ripley, cured thousands of patients of their ailments in the time of Napoleon the Third:

Aqua fontis	100. Gr.
Illa repetita	40. Gr.
Idem stillata	12. Gr.
Hydrogen Protoxid	.32 Gr.
Nil Aliud	1.25 Gr.

Translated from the Latin, this means:

Spring Water	100. Gr.
Repeat Same	40. Gr.
Same distilled	12. Gr.
H 2 0 (water)	.32 Gr.
Nothing else	1.25 Gr.

In short, plain water was the "miraculous formula"!

Note: I have been keeping track of the "recommended" uses for The Death-Dealing "remedy" known under over twenty names—**Sulfonilamid:** Here are a few of the conditions named in "our leading medical journals". Ear-ache; inflamation of the eyelids; sores in the nose; sore lips; pimples on face; sore-throat; pyorrhea, after-tooth extraction; weak voice; cofs of all kinds; bronchitis; asthma; stomach ulcers; colitis; constipation; rheumatism; neuritis; skin diseases of all sorts; cracks between the toes; sore feet; fevers of all kinds; pneumonia; pleurisy; irregular heart; etc BUT a regular MD MUST prescribe the remedy and look after the patient while the "miraculous remedy" is being used. To be in a hospital is the "safe plan". A caution is nearly always given—This drug often makes the patient blind, and at times will cause death, but the ones that can be helpt by it are more than the ones the undertaker will have to care for.

democracy

By Charles H. Ingersoll
(Of Dollar Watch Fame)

Looks like small potatoes—sending one little Communist woman back to Moscow. Yet that seems to be about the size of the Fifth Column purge.

Ingersoll

The idea that Communism is to be thrust on us by the propaganda of honest, labelled communists like Earl Browder and his wife, is very childlike. When will politicians learn the simple fact that communism means every attempt to weaken private ownership and build bureaucracy to absorb and regulate it. Deportees for these offenses would come from both our parties and all our colleges.

There's something peculiar in the operation of the new Hatch law to keep people from backing the political horse they want to win. The statements 'filed' after being duly sworn to, show that this form of crime is well in hand. But all the other evidences are that the spending is from ten to twenty times as much as reported. Of course the GOPs say most of the Democratic expenses are covered by WPA and other official 'vote-getters'.

So in this communist-union labor situation, the brain trust administration is again convicted of producing an impasse of illiteracy, in its attemps to circumvent nature and common sense with ingenious statutory devices.

Wage increases exacted in this way have the same effect in higher costs to the government, paid by consumer-tax-inflation, or high cost directly to the consumer on all he consumes; so that the increased wage is illusory—only in money—which buys so much less, that the increased wages do no good.

This system of wage boosting by NLRB laws, sit-down strikes, and picketing, and not reacting directly on the labor-consumer, does not disturb the college economists who steer the government; but slowing up war preparations will bring the system into the open and may show it up.

Colleges have dubbed economics "The Dismal Science",—their handling of it has rendered it true to that name.

Has the British Empire spread itself out too far, and in the process encountered too many powerful enemies to make survival possible? And will civilization necessarily go to pot if the British Empire does not survive?

'Empire' is one thing; peoples and nations are another. Is it natural or necessary that these empires exist? There are many trailing Britain along—Holland, France, Denmark, and many others—trying, competing, and fighting **for Empire.**

There's an analogy in business:- Of all the monopolistic attempts, many ar 'successful'. But how many are permanent? The only thing in business empire that has seemed to guarantee permanency, has been absolute ownership of land and natural resources. In other words, empires of every kind are based on the private ownership of land, increments, and income, and that ownership as surely inhibits security of private wealth, property and capital, as it does peace among nations.

Here is a surprise! The much abused old feudal system compelled land values to pay for government, as they should. Some 'new dealers' came along and got the landlord's burden of taxes shifted to the consumer, where it has since comfortably rested. The consideration was the franchise—it caught the 'popular' vote—a trade of sound economic values for a very doubtful political 'honor'. Some bargain!

RADIO TALK over KGB (dial 1330)

(Continued from page One)

as ex-administrator in the New Deal tripple A was favoring the war policies of the President, but like many other ex-members of the New Deal administration, Peek is an ardent supporter of General Robert E. Wood and the **America First Committee.**

Petitioning the President and Congress

The founding fathers of our Republic, were careful to insert a clause in the Constitution, giving citizens the right to PETITION their duly elected leaders on matters of concern to the public welfare. In the present Crisis every citizen should let the members of both branches of Congress know how he feels about the United States being drawn into Europe's present war. Petitions should be addressed to the President at the White House; to each representative of your respective district, his address is HOUSE OFFICE BLDG., Washington, D. C.; to each senator addressed to the SENATE OFFICE BLDG. and may I suggest a somewhat unusual method: After writing those three letters write one to Mrs. Roosevelt at the White House. She has better access to the President than anybody else and if you convince her she'll tell him.

Here is the text of the petition I am sending out:

Dear Sir, or Madam: Exercising the right granted every citizen under our Constitution, I respectfully petition the President of the U. S. and members of the Senate, the House of Representatives, to oppose all steps which may tend to involve this Nation in Europe's or Asia's wars. I urge you to use your influence against every proposal that might ultimately cause American blood to flow on foreign soil.

Be sure to sign your name in full and give your address. You can wire your petition if you have the money to spend. Now is the time to do your share if you want to keep America out of war. There is so much propaganda going on, our public officials do not know what you think unless you sit down and write them.

Keep America Out of War Committee

Congressman Van Zandt, of Pennsylvania, veteran of the last war, addressing a meeting in Chicago sponsored by the "Citizens to Keep America Out of War Committee", said that no sooner had he come out against sending our boys overseas, than he was called a "fifth colunmnist" on "Adolf Hitler's payroll": But the people of Pennsylvania in his district gave him more votes than either President Roosevelt or Wendell Willkie received. Van Zandt's platform was to "KEEP THE U. S. A. OUT OF WAR". "This shows," said Van Zandt, "that the great body of people want the nations of Europe to settle their own war, with us staying out of the mess! It is safe to say, that less than 10 per cent of our citizens actually favor the policy which is carrying us in the direction of foreign war."

Landon Disagrees with Willkie

The Associated Press reported that when Alf M. Landon heard about the favorable stand Wendell Willkie took towards President Roosevelt's aid-to-Britain bill, Landon said: "If Mr. Willkie had revaled that to be his position before the Republican national convention, he would not have been nominated".

I am sorry Mr. Landon did not read the BROOM. Did I not tell you plainly weeks before the national convention that this is the stand of Willkie on the war situation? Did I not explain time and again that I could not come out wholeheartedly for Willkie on account of it? That is why I favored Robert Taft rather than Willkie. Even after the nomination I continued to warn that both national conventions had been dominated by the same International Crowd which was doing its work in the background and that it won't matter which candidate is elected, they both will work towards the same end in their foreign policy. We suggest that you take the BROOM a little more seriously, for while we do not count among the big papers we surpass them in the quality of the information which we present in all public matters, be they local, state, national or world policies and news. We dare tell the most unwanted and unpleasant facts, because this is the business of a free press. And I tell them way in advance of the other papers, sometimes months in advance, sometimes years in advance. Watch and see, Russia is winning this war.

City Charter Amendments

At the spring election in San Diego city some amendments to the city charter are proposed. The political clique at city hall wants more power to do as they please and make us like it and pay for it. So they are proposing to take away the power from the voters to elect the city attorney. They want to appoint him. At present they appoint the city auditor, the city engineer, the city treasurer, the city manager who apoints the chief of police and chief of the fire department. The only check after election on the things they are doing is the office of the city attorney who at times tells them that they must obey the city charter and the laws of the state. Now the politicians at city hall don't like the idea of being told by the city attorney to stay within the law. They want the power to fire the city attorney whenever he stops them from violating the charter. They figure they could run the city hog wild if they had the power to appoint the kind of attorney they want who will give them legal advice to suit them and their political schemes.

I am serving notice right now that as long as I have money to go on the air and am publishing a paper in San Diego the politicians at city hall are not going to get the power to fire the city attorney and hire some fellow who will take orders from them instead of representing the people's interest at city hall. The people don't want that kind of a horse trade in place of the city charter they now have. The good Lord knows we cannot brag about the city attorney's rulings in some cases, but you can imagine how that city hall crowd will act when they have no check whatsoever on their legislative powers. If the charter is to be amended it should be amended to pay a full time salary to councilmen so they won't be mere rubber stamps of scheming special interests and the mayor should have **veto** power as every high executive has in state and federal governments. We must have checks and balances or else one gang runs us all and saddles us with taxes we cannot afford to pay.

Fred de Aryan Wins Prize

Here is a news item from National City: Bill Rogers of San Diego, Model-Airs club president, won the senior division event at the National City airport last Sunday when his rubber-propelled model plane flew 6 minutes and 43 seconds. Sixty-six model planes participated. In the junior division, first place went to Fred de Aryan of San Diego. His plane flew 6 minutes and 43 seconds, same as Roger's plane. Young de Aryan also won the special event.

If you would see how Fred works day and night on his airplanes and drafts mother and the family car to take him to airfields, you'd realize that finally he's bound to win some prizes. The boy has to earn his own money selling magazines and doing odd jobs to buy materials for his airplanes.

Divided Allegiance of City Employees

Should city employees belong to labor unions? I have always asked how a city employee can owe allegiance to two bosses. If the labor union is his boss and orders him to strike, or else, how can he be loyal to the city?

In San Diego we have the fire department fully unionized as well as many other branches of the public works department. They say that they will never strike against the city. But they did in Chicago. Elevators were put out of commission, traffic lights went out, drawbridges did not operate, garbage was not collected when over 5000 city employees went on strike. So who says that city employees don't have two bosses? How can a man take an oath to serve the city when he owes first allegiance to a labor union?

Salute the Flag

Last Saturday I sat in at a hearing of the county school board on an appeal of the parents of Jehovah's witnesses children expelled from the El Cajon school district for refusing to salute the flag. The County Board upheld the expulsion but suggested that the El Cajon Board give serious consideration to a proposal of substituting a pledge of allegiance to the constitution in place of allegiance to the flag. In Rochester, Minn., the Jehovah's witness children take this pledge to the Constitution because their religion forbids giving allegiance to an inanimate object, the flag. Good night.
